HUDDLESTON FUNERAL CHAPEL

INTRODUCTION

R. L. POLK & CO., publishers of the Chico and Oroville City Directories, as well as more than 700 other city, county, state and national directories, present to subscribers and the general public, this, the 1948 edition of the Chico and Oroville Directory, which also includes a directory of the rural free delivery box holders on routes which are pivotal from the Chico and Oroville Post Offices.

Confidence in the continued growth of Chico and vicinity's wealth, industry and population, and in the advancement of its municipal and social activities, will be created as sections of this directory are consulted, for the directory is a mirror truly reflecting Chico, Oroville and vicinity to the world.

The enviable place occupied by Polk's directories in offices, stores, libraries and homes throughout the country, has been established by rendering the best in directory service. With an unrivalled organization, and having the courteous and hearty co-operation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Chico and Oroville Directory will fulfill its mission as a source of authentic information pertaining to the community.

Population

The estimated population of Chico is 22,000, based on the number of individuals' names in the alphabetical section of this directory, with due allowance for children and for women whose names are not listed separately from those of their husbands. Territory immediately adjacent, which is part of the city, as far as business and social life are concerned, is included in the directory.

Six Major Departments

The several essential departments are arranged in the following order:

THE BUYERS' GUIDE for Chico, pages 15 to 78, and for Oroville opposite page 414, printed on goldenrod paper, contains advertisements of leading manufacturing, business and professional interests of these cities and vicinity. These pages will be found particularly interesting and instructive to substantial purchasing factors. The advertisements have been carefully grouped by departments and are indexed under headings descriptive of the business represented. This is reference advertising at its best, and, as such, merits a survey by all buyers anxious to familiarize themselves with sources of supply. The community's activities, in many interesting phases, are authentically pictured. In an ambitious and progressive community, like the Chico and Oroville district, the necessity of having this kind of information immediately available is very great, and frequently, pressing. General appreciation of this fact is evidenced by the liberal support the directory enjoys in the many fields which it serves.

THE ALPHABETICAL LIST OF NAMES of residents, business firms and corporations for Chico is included in pages 79 to 346, on white paper. A similar list for Oroville is contained in pages 415 to 542.

THE DIRECTORY OF HOUSEHOLDERS, TENANTS OF OFFICE BUILDINGS AND OTHER BUSINESS PLACES, AND STREET AND AVENUE GUIDE for Chico covers pages 347 to 414, on pink paper. In this section the names of the streets and avenues are arranged in alphabetical order; the residences and business houses are arranged numerically under the name of each street and avenue, and the names of householders and business concerns are placed opposite the numbers. Home property ownership is indicated by the character ◎, placed immediately after the name of the householder. The symbol ♁ preceding name denotes householders and places of business having telephones. A similar guide for Oroville is contained in pages 543 to 574.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 575 to 642, on white paper. This department lists the various manufacturing, mercantile and professional interests of the whole community in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable epitome of the business interests of the community. "The Directory is the common intermediary between Buyer and Seller." As such is plays no small part in the daily doings of the business world. "More goods are bought and sold through the Classified Business Directory than through any other medium."

THE RURAL ROUTES DIRECTORY, pages 643 to 706, on white paper, includes the box holders on the rural routes served by the Chico and Oroville Post Offices.

THE NUMERICAL TELEPHONE GUIDE for Chico and Oroville is given in pages 707 to 750, on white paper.

Community Publicity

The directory reflects the achievements and ambitions of the community, depicting in truthful terms what it has to offer as a place of residence, as a business location, as an industrial site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the directory in Directory Libraries, where they are readily available for free public reference and serve as perpetual and reliable advertisements of Chico, Oroville and vicinity, for business men, everywhere, realize that the city directory represents a community as it really is.

The Chico Directory Library

Through the courtesy of the publishers of the Chico and Oroville Directory, a Directory Library is maintained in the offices of the Chico Chamber of Commerce for free reference by the general public. This is one of the more than 600 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the city directory as an advertising medium, with assurance that it will bring a commensurate return.

R. L. POLK & CO., Publishers

CHICO STATISTICAL REVIEW

Name of City—Chico, California.
Slogan or Sub-phrase—"Commercial Center of Golden Empire."
Form of Government—City Manager.
Population—14,000 inside city limits, 22,000 estimated 1947 population, including suburbs.

City Statistics—Fire department employs 14 full time employees, 25 call firemen, 20 substitute firemen, 4 modern fire engines. Police department employs 18 full time employees, radio equipped prowl cars, radio equipped motorcycles.

HIDDLESTON FUN

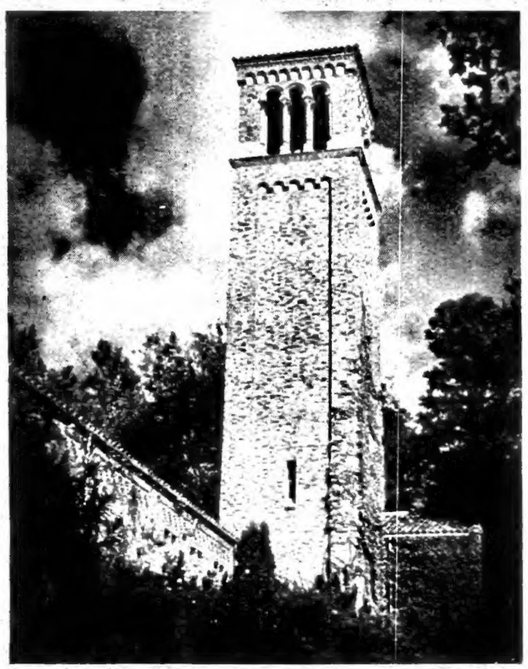
CHICO

"The Ideal Location for Industry in the Heart of the Golden Empire"

Chico is located in Sacramento Valley; 100 miles north of Sacramento; 176 miles north of San Francisco on scenic U. S. Highway 99 E. Entrance to Lassen National Park, via Deer Creek Highway. Founded in 1849 by General John Bidwell, California pioneer, congressman and candidate for president in 1892 when he purchased the entire Rancho Chico.

Growth has been rapid, exceeding the average increase of the state in the last decade. Chico is center of rich agricultural district. Annual yield for all crops for 1946 exceeded $42,000,000. According to "SALES MANAGEMENT 1947 SURVEY," Chico's purchasing power is 67% above that of an average community. The figures show that the average Chico family have an average net income of $4,190. This income, which totaled better than $17,000,000 in Chico, was translated in purchases of $22,395,000 in the local retail stores. The excess of sales over income shows that Chico is the trading center for a large surrounding area.

Chico is rapidly becoming industrialized due to the excellent industrial sites available and easy access to 2 railroads, freight lines.



CHICO STATE COLLEGE LIBRARY

Chico State College has an enrollment of more than 1,400 students for the 1947 school term.

With an average mean winter temperature of 45 to 50 degrees and an average mean summer temperature of 70 to 75 degrees, Chico has one of the finest climates in California. The cool nights in summer and the relatively low humidity makes sleeping in the open air a joy the year round. During the warmer weather of July and August, a few minutes' ride into the mountains will bring you to cool camp sites among the pines and excellent trout fishing. Forty-five minutes' driving will take you to the summit and the snow line.

SIR JOSEPH HOOKER OAK

Circumference eight feet above the ground, 28 feet 3 inches; height of tree, 96 feet; spread of north and south branches, 153 feet; diameter of trunk, 10 feet; approximate age, 1,000 years.

Water supply from deep wells; given highest rating by California State Board of Health.

Business district all paved; paved area in residence districts.

Rainfall averages 23.60 inches annually.

Altitude 210 feet; low humidity.

Six good hotels.

Two banks with combined deposits of over 20 million dollars.

Five excellent public camp grounds for tourists.

Retail and wholesale trade center for California territory north of Sacramento. Thirty-four cities and communities within a 50 mile radius of Chico.

Location of Pacific Coast headquarters Diamond Match Co, large match factory and other wood working factories operating 68 retail yards in California; three large fruit packing plants; Sacramento Northern shops; several mills and wholesale distributors.

Big almond, apple, apricot, orange, walnut, and rice growing center. Value of these crops over $14,000,000. There are 40,626 acres in Butte County planted to rice, producing over $7,000,000 yearly.

HIRRLESTON FINEBAL CHAPEL

Southern gateway city to Lassen Volcanic National Park and Northern California mountain resorts, via Deer Creek Highway.

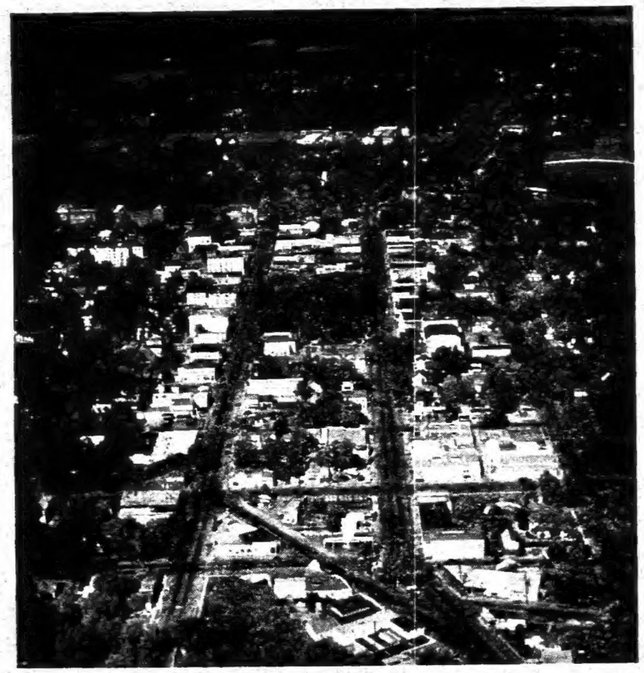
Federal Post Office building erected at cost of $100,000 in 1915. Post office has rank of first-class office.

Modern, paid fire department, completely motorized.

Eleven grammar school buildings; excellent school system.

$800,000 high school with largest campus in California; 55 acres, developing Junior College of Agriculture.

California State College drawing students from all parts of Northern California. Training School in connection with College.



AIR VIEW OF CHICO

Chico is the largest city in California because of its geographical location in the center of 33 cities and communities surrounding it within a radius of 50 miles.

For further information regarding the Chico District, address or inquire at the office of the Chico Chamber of Commerce, 513 Main Street, Chico.

Mr. Citizen! . . . . . .

Correct Information Is Valuable to You!

¶Cooperate with the City Directory enumerators to see that your name and those of your family are correctly listed in each edition. *Your name, listed correctly in the City Directory, is a great asset.* This has been proved thousands of times, especially in cases of employment application, proof of residence, questions relating to citizenship, applications for welfare assistance, distribution of mail, etc. Be better established . . . be on record as a local citizen by seeing that your name is not missed or incorrectly listed in the Directory.

WHY A BUYERS' GUIDE?

★ *It is customary to include a Buyers' Guide in the City Directory because* : : :

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

The Buyers' Guide is a necessary supplement to the regular listings; it is good City Directory information . . . EXTENDED

GAS AND ELECTRIC SERVICE

ADEQUATE AND DEPENDABLE GAS AND ELECTRIC SERVICE FOR CHICO AND ITS ENVIRONS

ELECTRIC SERVICE

P.G. and E.'s interconnected electric system serves almost all of Northern and Central California. Its generating sources consist of 55 hydro-electric and 14 steam-electric generating plants with a total installed capacity of 2,322,707 horsepower. In addition, there is 400,000 horsepower available from other sources. This system provides efficient and reliable electric service to all classes of users—industries, business firms, farms and homes—at rates that are among the lowest in the nation.

GAS SERVICE

More than 99 per cent of the Gas distributed by P.G. and E. is Natural Gas purchased from 25 California producers, not affiliated with the Company, who produce Gas from California fields situated in the Sacramento and San Joaquin Valleys. The Company's Natural Gas system consists of 1466 miles of transmission pipe lines and 8698 miles of distribution mains. Like electricity, natural gas is sold at rates among the lowest in the nation.

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

CAUTION . . .

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. We ask no payment until the work is delivered, and our solicitors have strict orders not to take payment for either advertising or subscriptions.

CAUTION...

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. We ask no payment until the work is delivered, and our solicitors have strict orders not to take payment for either advertising or subscriptions.

When You Borrow a Directory

You are not only stealing a little of your friend's valuable time but you are using a portion of his capital for your business. You are wasting some of your time, and you miss the satisfaction of the man who stands on his own feet. Better buy your Directory.

Be an Owner, Not a Borrower

YOUR QUESTIONS ANSWERED

Many questions pertaining to the city are answered by the City Directory.

Who are the city officials?
Where is a certain street?
Who are the foreign consuls in the city?
What societies and churches are represented?

These and a thousand more questions are answered by the City Directory.

Order one today.

Common Sense About City Directory Circulation . . .

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half daily consultations for each book for THREE HUNDRED and FIVE days, therefore —

1000 x 3½ x 305 = 1,067,500

A Unique Service Provided By The Publishers of Your City Directory

The publishers of this Directory maintain for the use of their subscribers and the general public a complete library of late out-of-town City Directories. We invite you to consult this library when in need of names and addresses of individuals and firms in other cities. It is especially designed for the reference use of business men who subscribe to the local City Directory, when seeking markets and sources of supply outside this city. There is no charge except for extended continuous use. The library, with attendant in charge, is located at:

Directory of Householders

Occupants of Office Buildings and Other Business Places

Including a Complete

Street and Avenue Guide

1948

Copyright, 1948, by R. L. Polk & Co.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or house owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets both sides of the streets are included in one list. The profession or business of individuals or firms is given only at their respective places of business; to find occupation of others refer to Alphabetical List of Names.

Numerical streets are compiled following the Named Streets.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The symbol △ preceding name denotes householders and places of business having telephones.

Advertise Your Good Things

Many a limping business is kept from healthful development by the morbid aversion of one of a firm's members to publicity—perhaps he is honestly so conscious of the excellency of his wares that he expects the world to search them out. But the busy world hasn't time. If you have a good thing to sell proclaim it from the housetops. The world wants good things, but it can't discover them in hiding places. Bring them into the market place.

PUBLISHERS

604 MISSION STREET, SAN FRANCISCO, CALIF.

THIS PUBLICATION IS THE PRODUCT OF A MEMBER OF

Thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.
5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publications.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.
8. To co-operate with approved organizations and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

WHY A BUYERS' GUIDE?

IT IS CUSTOMARY TO INCLUDE A BUYERS' GUIDE IN THE CITY DIRECTORY BECAUSE:

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

★ **The Buyers' Guide is a necessary supplement to the regular listings; it is good City Directory information . . . EXTENDED** ★

Oroville Statistical Review

Form of Government—Council of 7 members.

Population—Census (Estimate 1946) in corporate limits, 6,500; Greater Oroville, 15,000; including trading area, 25,000.

Altitude—207 feet above sea level.

Climate—Mean annual temperature 61.5° F.

Average Annual Rainfall—28.33 inches.

Assessed Valuation—$4,992,655.00 including public utilities.

Tax Rate—$1.90 general rate (1947).

Telephones in Service—2,514 (1947).

Churches—Seventeen.

Hotels—Four with accommodations for 300.

Education—Four elementary schools and Union High School.

Banks—Two.

Industries—Agriculture; fruit canneries; railroads; mining and lumber operations; wood processing; dairies; slaughter house and meat packers; olive processing; Olive Growers' Association; Citrus Growers' Association; Bechtel-Kaiser Rock Crushing Company.

Highways—Oroville is served by the Feather River Highway (24) and a lateral connecting the city with Highway 99-E.

Recreation—Swimming; fishing (600 miles of fishing streams within one day of Oroville); Feather River Wonderland; boating; hunting; night baseball games during summer; two playgrounds; recreation center at Municipal Auditorium; two air-conditioned theatres seating 2,300; dancing; visits to some of California's most historic spots.

By Courtesy Oroville Chamber of Commerce

OROVILLE

County Seat of Butte County

and

Gateway to the Feather River Wonderland

OROVILLE, western terminus of California's newest trans-Sierra Highway—the $8,150,000 Feather River Highway—nestles at the eastern rim of the Sacramento Valley on the banks of the tumbling Feather River. Founded in 1851, Oroville became the county seat of Butte County in 1856.

Oroville was the mecca for hordes of early California emigrants following Captain John Bidwell's discovery of gold in the South Fork of the Feather River, July 4, 1848—the second major gold discovery in California. Both quartz and placer mining are still important industries here.

The Oroville district produces over one-half the olive oil manufactured in the United States. Her three olive processing plants pack one-third of the nation's processed ripe olives.

Because of ideal topographic and climatic advantages Oroville produces the earliest navel oranges in the state. Smudge pots or orchard heating have never been resorted to by citrus growers of this section. Valley fog is an oddity here.

Favored by an abundance of cheap water the Oroville area boasts of thousands of foothill and valley acreages under irrigation ideal for deciduous fruits, citrus, nuts, and a tremendous increase in olive production.

Agriculture, lumber, mining, stock and a natural gateway to an unsurpassed recreational region places Oroville among Nature's truly blessed.

Common Sense About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half daily consultations for each book for THREE HUNDRED and FIVE days, therefore 1000 x 3½ x 305 = 1,067,500

TO PATRONIZE THOSE CONCERNS WHO ARE
- - - - IN BUSINESS TO STAY.

It's human to expect that such business establishments always stand back of the wares they sell.

The advertising in this Directory is suggestive of the stability and permanency of the advertisers. Frauds, fakes, get-rich-quicks and other schemers have little use for directory advertising. It lives too long.

The modern City Directory is a business institution. It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such fundamentals as the citizens themselves.

If you are not advertising your business in the Directory, may we explain how and why it will pay you?

OROVILLE
Directory of Householders
Occupants of Office Buildings and Other Business Places
INCLUDING A COMPLETE
Street and Avenue Guide
1948

Copyright, 1948, by R. L. Polk & Co.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or house owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets both sides of the streets are included in one list. The profession or business of individuals or firms is given only at their respective places of business; to find occupation of others refer to Alphabetical List of Names.

Numerical streets are compiled following the Named Streets.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

INCLUDING A COMPLETE

Street and Avenue Guide

1948

Copyright, 1948, by R. L. Polk & Co.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or house owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets both sides of the streets are included in one list. The profession or business of individuals or firms is given only at their respective places of business; to find occupation of others refer to Alphabetical List of Names.

Numerical streets are compiled following the Named Streets.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The City Directory . . .

places the city on the map and is its only representative to the world beyond its own gates.

It is the city's catalogue of business and represents the city, its citizens and institutions in every corner of these United States.

It is the logical means of publicity in advertising the city, its manufacturing industries, its advantages and resources.

The men who direct the affairs of progressive and up-to-date business institutions, recognize the fact that the City Directory tells the story of the city's life and keeps it before the public as no other publication does or can.

Its Classified Business Section furnishes a list of all trades, professions and pursuits, constituting a special trade directory or buyers' guide and is the best advertising medium on earth.

How to Use This Directory

To get the most good from this Directory you must know what it contains and how to use it. You cannot get this knowledge by glancing hastily through the book, and assuming that your mind grasps a full idea of its contents from the name.

Names Appearing in Bold Type . . .

IN THIS DIRECTORY are the names of those people who ACCOMPLISH THINGS and are entitled to favorable consideration, if for no other reason than their public-spirited support of measures which make for progress.

They represent that ENERGY AND PUSH so essential to the commercial prosperity of the City, and in dealing with them no mistake will be made.

The publishers are honored in thus making them better known to the public.

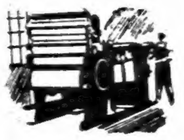
DIRECTORY PUBLISHERS FOR 750 CITIES

Polk City Directories have been the accepted basis for population listings in hundreds of American cities. These directories, compiled regularly, provide detailed information concerning the name, address, occupation and other important information about all adult residents of a city. In addition to local circulation, Polk cooperates in the maintenance of City Directory Reference Libraries in cities throughout the U.S. and Canada. *The priceless ingredient of a City Directory is the accuracy with which it is made; accuracy is the product of experience; Polk has been compiling City Directories since 1870.*

DIRECT MAIL ADVERTISING FOR LEADING INDUSTRIES

Polk's Direct Mail Advertising Division—one of the world's largest—specializes in high-quality, productive advertising. America's largest industries are Polk's long-time clients. Polk's direct mail advertising is *complete* . . . consultation, research, testing, creating, printing, producing, and distributing to selected prospects. Polk's production plants are geared to handle more than two million mailings daily. Included in its production facilities is the world's largest battery of imprinting presses and the world's largest installation of automatic typewriters. *Polk's direct mail advertising services are dedicated to helping business men produce increased sales volume.*



NATIONAL MAILING LISTS AND MAILING SERVICES

The people of America are in Polk's list files . . . all businesses, trades, professions, and vocations . . . obtained through personal canvass. Polk also lists all automobile and commercial vehicle owners—by make of car or truck, by model, by year, by state, county and city. Mailing lists of one kind or another, totaling more than 60,000,000 names a year, are compiled for Polk clients. Facilities for multigraphing, typing, letter-press or offset printing, questionnaires or letters, and complete addressing, imprinting and mailing services are available. *Polk can reach the right prospects DIRECT, with the right kind of message.*

AUTOMOBILE AND BUSINESS STATISTICAL HEADQUARTERS

Since 1922 Polk has been statistician for the automotive industry. Polk total count of passenger cars, trucks, motorcycles and trailers by make, by year model, is the only annual inventory of the country's automotive equipment. Polk's new car passenger and truck reports furnish manufacturers and dealers with a monthly recapitulation of all sales for each territory . . . The first business census of the U.S. was a Polk project, giving statistics covering the number of manufacturers, wholesalers and retailers for each state, county and town. *Using Polk statistical services American business is able to plan intelligently its production, distribution and sales.*

SURVEYS AND CONSUMER RESEARCH

Fast, accurate research surveys and analyses, based on experience gained through nation-wide home and business canvasses, are provided by the Polk Consumer Research Division.

POLK BANKER'S ENCYCLOPEDIA

Polk's semi-annual directory of the banks of the nation is the outstanding Directory in the banking field. Polk reports on the condition of the nation's banks, their officers and directors, including a detailed statement on each bank, as well as listing investment dealers, stock exchange members, insurance companies, and other general financial data.

R. L. POLK & CO. Headquarters 431 HOWARD STREET, DETROIT 31, MICHIGAN

Directory Branches in 30 Cities . . . Direct Mail Branches in 7 Cities

Serving American Business Since 1870

CITY DIRECTORY USES

1. Sales Promotion

a—Sales Analysis—
Comparing present amount of business obtained in a given area with possible maximum business in that area. The Householders' Directory shows the classes of business located on a street, in office buildings, in sections of the city, etc. In checking up salesmen's calls on business in an assigned territory the directory presents a picture of how many places have not been reported upon, and shows a ready list of prospects for your goods or service.

b—Leads—
Determining parts of city best suited for increasing business. The alphabetical listing for each business and professional concern, shows the names of the owners, partners or officers.

c—Selected districts—
Determining parts of city best suited for increasing business. The Householders' Street Directory shows the exact type of business or residences along each street of the city—and shows if the occupant of the home is the owner.

d—Building mailing lists and direct mail campaigns—

1. Listing of local people (Neighborhood List) within a given radius of business location. On your city map, draw a circle to include the territory you wish to cover in your neighborhood list. From the map you can obtain the name of each street with intersections in the circle you have drawn. In the Householders' Street Directory you will find the correct name of the occupant at each house, or building on these streets. This will give you a 100% list of the territory desired.
2. Lists of business houses and the professions—The business directory at the end of the book classifies every business and profession according to the nature of the business. Complete lists such as doctors, lawyers, printers, garages, auto dealers, furniture stores, contractors, etc., can be found in this classified directory section.
3. Vocational Lists—Such as clerks, stenographers, telephone operators, carpenters, salesmanagers, purchasing agents, laborers, etc. The Alphabetical Directory shows the occupation of every individual in the city. Run over the alphabetical pages—check marking the persons whose occupation is the one wanted for your list. This will give you a complete and accurate list for the entire city.

2. Credit

a—Verifying customer's statements and information—

b—Information about customer—
Correct name, address, where employed and wife's name is given in the Alphabetical Directory for every individual. Whether he rents or owns home is usually shown in the Householders' Directory.

c—Determining character and stability of applicant for credit—
This directory gives his present occupation and residence. By referring to each yearly edition of the directory for the past few years, it is quickly determined whether the applicant holds the same job and residence, or flits from one job to another and one residence to another. After the new directory is delivered to you keep the old one on file. Never destroy it. You'll find old ones invaluable in checking your past records.

FOR EVERY BUSINESS

d—Identifying applicant and applicant's references—
The alphabetical directory gives complete information for each individual. (See information about customer). The references given by the applicant for credit can be identified in the same manner—who they are, what position they hold, etc.

e—Collecting accounts—
Tracing and locating debtor. Locating other members of debtor's family or relatives.

3. Delivery and Shipping

a—Routing—laying out route for delivery—
Use description of streets in the Householders' Street Directory, with an indexed map of the city for locating and laying out delivery route.

b—Obtaining correct addresses—
Where numbers on shipping instructions are not plain, or only street is given, the correct number can be found in the alphabetical or Householders' Street Directory.

c—Locating streets, buildings, un-numbered houses—
A full description of every street—with location—is given in the Householders' Street Directory. When the address given is an apartment or building without street and number being given, the alphabetical section will give you the correct street and number for that building. Many buildings on streets are not numbered—or badly numbered—making it difficult to find the building wanted. The Householders' Street Directory shows the location of the building along the streets.

4. Purchasing

The complete classified business section in the back of this directory makes available all sources of goods wanted; assists in selection of most reliable and satisfactory firms to deal with; the nearest companies to facilitate delivery of purchases, and determining the proper official or firm to deal with. The standard classified headings are complete and show all firms under the proper headings. There are many special headings marked with an asterisk (*) showing firms in display type. These firms are progressive and desire a more complete classified representation of their products.

5. General Information

The Alphabetical Directory lists—Persons' full name and correct spelling, occupation, where employed, street address of residence, if married gives wife's name, head of house or roomer, renting or owns home. Lists all corporations showing offices, all partnerships showing partners, all individual business showing proprietor. All public officers, clubs, associations, etc.

The Householders' Street Directory shows every street—a description of its location, all occupants on each street, the ownership of the property and all intersecting cross streets.

The Classified Business Directory shows all business in the city arranged under heading most descriptive of the nature of the business.
